

KONGSBERG

metier academy international

One important factor for success is a high degree of professional competence, in terms of Kongsberg Maritime's professional solutions and processes, as well as skill areas related to the management and execution of projects. In order to achieve this, we have established a tailored corporate programme in project management in corporation with Metier Academy.

CEO, Torfinn Kildal, Kongsberg Maritime

Better Projects through Tailored Training

Kongsberg Maritime is part of Kongsberg Group, an internationally-oriented, knowledge-based corporation, headquartered in Norway. Kongsberg Maritime has over 3,000 employees operating in 25 countries around the world and specialises in the supply of innovative and reliable solutions for shipping, offshore, oil & gas, subsea, navy, coastal marine, fisheries, maritime training, port and harbour surveillance and more.

Kongsberg Maritime will expand its base of knowledge and expertise on an ongoing basis. With the great importance that projects have for the Kongsberg Maritime business, developing people who are influencing and working in projects has high priority.

Challenges and Objectives

- Develop project management capability
- Encourage a commercial mindset for projects
- Correct use of Kongsberg Maritime Project life cycle and related tools
- Continuously work towards better margins and improved processes
- Secure the necessary competence to execute projects and programmes in a professional manner

Solution - Training Programme

- A tailored corporate programme with university credits, university degrees and international credentials
- Enable organisational learning and development opportunities in addition to enhancing project competence through the training programme
- Role based and adapted to the learning process of the various segments in the organisation and its particular needs

Why Metier

- Metier Academy has the required competence, skills and extensive experience
- Metier has both training and consultancy services available
- E-learning makes it easier for busy project managers

Benefits and Results

- Established project culture has increased project success
- Project life cycle model defined and implemented
- Increased overall competence in project management
